RE: PacifiCorp "Cottonwood/Wilberg, Des-Bee-Dove, and Deer Creek" Mines - Application for a Permit Revision, Revised Volume 9 Hydrology, Task ID No. 2661

Dear Sir or Madam:

This is in response to the Utah Division of Oil, Gas & Mining's (UT-DOGM) October 17, 2006, request for a decision, under 30 CFR 944.30, whether the above subject permit revision constitutes a mining plan modification.

Mining plan approvals by the Secretary of the Interior are required under the Mineral Leasing Act of 1920, 30 U.S.C. 181, *et seq.* before coal mining can occur on Federal lands. This letter serves to document OSM's determination whether or not a mining plan approval from the Secretary is required for the above permitting action.

OSM's review of the Application for a Permit Revision, Revised Volume 9 Hydrology, has determined that it proposes to revise and update the Hydrologic Section for the Cottonwood/Wilberg mine, Utah State permit C/015/019, the Des-Bee-Dove mine, Utah State permit C/015/017, and the Deer Creek mine, Utah State permit C/015/018, to include monitoring of the Mill Fork Spring site UJV-213.

Based on a review of the activities associated with the permit revision, OSM has determined that the proposal does not meet the requirements of 30 CFR 746.18(d). Therefore, the proposed permit revision does not constitute a mining plan action requiring Secretarial approval.

OSM's decision was based solely upon the Federal regulations under 30 CFR PART 746 and not the technical aspects of the revision application itself. Consequently, OSM's decision does not relieve UT-DOGM from coordinating the review and approval of the Application for a Permit Revision, Revised Volume 9 Hydrology, with other Federal agencies for compliance with other Federal regulations.

OSM also electronically transmitted the October 17, 2006, 2005 request to the Bureau of Land Management and the U.S. Forest Service for their review and comment.

TAKE PRIDE[®]
IN AMERICA 

In an electronic transmittal dated October 17, 2006,, the U.S. Forest service stated its opinion the permit revision would not constitute a mining plan action requiring Secretarial approval.

The Bureau of Land Management did not provide any comments in the thirty day time frame established by the Federal regulations under 30 CFR 944.30, Article VI. D.

Please notify the applicant of our decision on this matter.

Should you have any questions regarding this letter or approval, please contact Carl R. Johnston, Utah Federal Lands coordinator, at (303) 844-1400, extension 1500.

Sincerely,

Ranvir Singh
Manager, Northwest Branch
